

**NOW THAT YOU'VE NOTICED WHAT
IT SAYS, HERE'S WHAT IT MEANS.**

It means developing a proprietary American urethane that's constantly refined to improve durability and longevity. And using American-made, aircraft-grade Hard Chrome that's so tough it meets military specifications. It means operating our own manufacturing facility, because choosing the right materials means nothing if you don't control how they're built. So when you see "Made in the USA," you see a guarantee that our products will consistently deliver the quality and performance that have made Iron Grip the preeminent name in strength equipment. For more information call 800-664-4766 or visit us at www.irongrip.com.
